 - Reminder that we're waiting on a regulatory change in October 2022 (see [FAR case 2014-002](#)) that will allow an OCO to choose one or several NAICS; this will allow Services MAC Domains to accommodate one "bucket" for Small and Other than Small businesses. Note that we received a few statements that will not be posted for these reasons and we are contacting the companies to request re-submissions.

UNR Events Committee Co-Chair: Dhira Bluestone

There will be an OASIS Industry Event on April 27th, 2022 at CGI Federal in Arlington VA. We plan to have some GSA panel speakers and end user presentations followed by an industry networking event. This event will be "in person" and can be reserved on a first come, first serve basis with an allowance of one person per company. The total capacity for this event is 150 people. Registration should be open by March 1. The event will require mask wearing and attendees to show proof of vaccination. Additionally, the committee meets regularly - if anyone wants to join us in the planning, we encourage participation. Everyone is welcome to help. We appreciate the support and look forward to seeing everyone "in person" in April.

- OASIS Program Office (Debra Drake, GSA) - No questions today
- Other Issues: 1) GSA interest group dashboard and calendar needed to coordinate activity across GSA contracts (OASIS, Alliant 2/3, ; 2) Services MAC IDIQ - GSA will be queuing up meetings w/ industry groups in March
- Next meeting, March 15, 2022 at 2pm ET
