

## OASIS (One Acquisition Solution Integrated Services)

GSA OASIS Contract No. 47QRAD20DU130

### Pool 1 — Management/Scientific/ Technical Services

#### **AECOM Technical Services, Inc. (DUNS 003184462)**

One California Plaza  
300 South Grand Avenue, Suite 900  
Los Angeles, CA 90071-3173

**Period of Performance:** One 5-yr Base Period (October 2020 to October 2025) plus one 5-yr Option Period

**Contract Ceiling:** Unlimited

**Pricing Type:** All pricing types allowed

### General Overview of OASIS

GSA OASIS is a broad “Best in Class” (BIC) contract platform for professional services requirements. A multiple award indefinite delivery/ indefinite quantity (MA-IDIQ) contract, this vehicle is available to all U.S. federal agencies for access to complex, integrated professional services. With no ceiling dollar amount for task orders, OASIS provides flexibility in contracting and provides a pathway to a total solution approach.

#### The GSA OASIS

- Spans multiple professional service disciplines
- Contains IT components, (when IT is incidental to the requirement)
- Contains ancillary support components commonly referred to as ODCs
- Provides flexibility for all contract pricing types including cost type arrangements
- Any one or combination of the above

Providing both commercial and non-commercial services. Core disciplines include:

- Program Management Services
- Management Consulting Services
- Logistics Services
- Engineering Services
- Environmental Services
- Scientific, Technical & Financial Services

[Learn more at the GSA Website](#)

#### Services not included under OASIS

Some services are not normally allowed under OASIS. Requirements under OASIS need to be carefully reviewed if they include the following types of services:

- A&E Services subject to Brooks Act and FAR Part 36 acquisition procedures
- Requirements when the primary objective is to obtain IT products/services
- Requirement that provides a significant number of blue-collar labor or contract for “service” employees covered by a Wage Determination

## Why Use OASIS?

- **Inexpensive:** Contract Access Fee is no more than 0.75%
- **Speed:** Task Orders are done quickly for diverse efforts
- **Broad Coverage:** Requirements can span many areas of expertise and mission spaces
- **Saves Lead Time:** OASIS contractors already pre-qualified
- **Special Agency Needs Met:** Allows for specific terms and conditions, clauses and provisions to be included at task order level
- **Reduces Impacts to Acquisition Lead Times:** Reduced Protest Exposure when value is under \$10M

## General Steps – How Do Clients Issue OASIS Task Orders?

- 1 Request from GSA a Delegation of Procurement Authority (DPA) allowing a Contracting Officer to “order” using the GSA OASIS contract
- 2 Have a Warranted Contracting Officer complete the DAU FAC 052 GSA OASIS [training module](#)
- 3 Conduct Market Research and Acquisition Planning (FAR Part 7)
- 4 Build the Task Order Solicitation normally prescribed/used by your agency (FAR 16.505)
- 5 Issue the Task Order Solicitation to all OASIS Pool Holders to ensure fair opportunity requirements under FAR16.505 are met or after Market Research issue to firms found to be “responsive and responsible”
- 6 If issuing Sole Source or Direct Award make sure the proper justification if documented IAW FAR Part 6
- 7 Conduct evaluation consistent with the solicitation
- 8 Award the Task Order and document decision (FAR 16.505)
- 9 Send the award information to the OASIS office at [OASISawards@gsa.gov](mailto:OASISawards@gsa.gov)
- 10 Report Action: View instructions on task order reporting in FPDS-NG System
- 11 Administer the Task Order: Send modifications to the OASIS office
- 12 Review and report past performance
- 13 Close out the task order

## POOL 1 Applicable NAICS Codes

### NAICS CODE NAICS TITLE

541330	Engineering Services
541360	Geophysical Surveying and Mapping Services
541370	Surveying And Mapping (Except Geophysical) Services
541380	Testing Laboratories
541611	Administrative Management and General Management Consulting Services
541613	Marketing Consulting Services
541614	Process, Physical Distribution, and Logistics Consulting Services
541618	Other Management Consulting Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
541820	Public Relations Agencies
541890	Other Services Related to Advertising
541990	All Other Professional, Scientific, and Technical Services

# ARCTOS | All In.

Always **All In**: for the **Mission**, for the **Warfighter**, for the **Next Generation**

ARCTOS provides a wide range of technical solutions for the defense market. If it has anything to do with aerospace, cyberspace, or space systems, we design it and keep it going. This means everything from fighter jets and rockets to simulations and cybersecurity software. When it comes to complex, high-stakes missions, our all-in approach makes all the difference. It means our customers get more breadth, more know-how, and more accountability on every project. That's why the US Army, Air Force, NASA, and other government entities, all turn to us. It's also why leading private sector companies partner with us. ARCTOS | All In.

ARCTOS is a leading provider of full lifecycle system support to defense, space, and intelligence markets. Our cradle-to-grave capability makes us uniquely qualified to provide full lifecycle support to serve the increasingly complex missions of our customers, as well as provide enhanced training, resources, and career opportunities for our employees. ARCTOS is comprised of two business units: Technology Solutions and Mission Solutions.

## MORE BREADTH. MORE KNOW-HOW. MORE ACCOUNTABILITY.

### Technology Solutions

- Propulsion Systems Design & Test
- Aero & Propulsion Materials
- Launch Safety
- Research & Development
- SETA-A&AS-SE&I
- Meeting Management & Graphics

### Mission Solutions

- Non-Standard Material Procurement, Inspection, & Delivery
- Contractor Logistics Support (CLS)
- Training/Partner Nation Development
- Validation & Certification of Encrypted Systems

## ARCTOS CONTRACT POOLS

### OASIS – Small Business

**Pool 4** – R&D services in Biotechnology, Physical Engineering, and Life Sciences.

**Pool 5A** – R&D services in Aircraft Parts, Auxiliary Equipment, and Aircraft Engine Parts

**Pool 5B** – R&D services in Space Vehicles and Guided Missiles, their Propulsion Units, Propulsion Unit Parts, and Auxiliary Equipment and Parts

**Pool 6** – R&D services related to Aircraft

### OASIS – Unrestricted

**Pool 1** – Professional, Scientific, & Technical services.

**Pool 3** – Engineering services.

**Pool 4** – R&D services in Biotechnology, Physical Engineering, and Life Sciences.

# AXIENT: A PREMIER SOLUTIONS AND SERVICES COMPANY

*Accelerating Possible*

## Get to Know Us

Axient advances defense and civil missions from aerospace to cyberspace with multi-domain test and analysis, mission engineering and operations, and advanced technologies. We partner with our customers to identify and analyze their most important challenges and design solutions that turn challenges into breakthroughs to accelerate assured performance. With extensive domain expertise in defense and aerospace, we rapidly develop mission-enabling technologies that allow customers to move at mission speed. With an unwavering commitment to mission success, we make customers more capable, decisions more informed, systems more efficient, and outcomes more certain.

## About Axient

Axient is the result of the merger of four leaders in the defense and civil markets: QuantiTech LLC, Millennium Engineering and Integration LLC, Systems Engineering Group, and Dynamic Concepts LLC. Axient is headquartered in Huntsville, Alabama and has provided premier services and solutions to the Federal Government for more than three decades. Customers choose Axient because they know they can trust our people and count on our performance. With over 2200 employees and locations in Alabama, Tennessee, Florida, California, New Mexico, Colorado, and the National Capital Region, we provide local expertise and program management to our customers which means faster response times and an easier partner to reach. Axient is certified in the following: ISO 9001:2015, AS9100 Rev D, CMMI-DEV Maturity Level 3, and has a DCMA Purchasing System, DCMA Property System, and DCAA Accounting System. Our history of success is attributable to our core philosophy of putting mission and customers first, empowering our program leaders, and eliminating barriers to success for our customers by providing value-added, mission-oriented services and solutions.

## What We Do

### CAPABILITIES

Axient delivers superior, custom-tailored engineering & technical services through end-to-end capabilities providing innovative, mission-oriented expertise to Defense and Civil customers. We provide our customers depth & scale in the following core capability areas:

- Systems Engineering and Integration (SE&I)
- Safety & Mission Assurance
- Product Engineering
- Infrastructure Development and Mission Operations
- Multi-Domain Test and Analysis
- Logistics Engineering and Supply Chain Analytics
- Cyber Systems Development

### TECHNOLOGY FOCUS AREAS & EXPERTISE

Our experts specialize in the following technologies for our customers:

- Hypersonics • Directed Energy • Sensors (Radar, Optics, Acoustics, etc.) • C5ISR • Computer Generated Imagery • Cyber • Advanced M&S
- Autonomous Machines
  - Missile & Aviation System Unique Technologies
  - Data Visualization/ Knowledge Management
  - Geospatial Systems/ Technologies
  - Position, Navigation, & Timing Systems
  - Artificial Intelligence/Machine Learning
  - Augmented Reality

At Axient, our employees are experts across a wide variety of disciplines:

- SE&I
- Digital Engineering
- M&S
- Software Engineering & Development
- Rapid Prototyping
- Technology Development
- SWIL/HWIL
- Data Science
- Cybersecurity
- Human Space Flight
- Intel Analysis
- Test & Evaluation
- Logistics Analysis
- Facilities / Environmental Engineering
- Business Intelligence
- Safety, Reliability & Quality Assurance
- Risk Management

## Customers

U.S. Army • U.S. Air Force • U.S. Space Force •  
U.S. Navy • National Aeronautics & Space  
Administration (NASA) • Missile Defense  
Agency (MDA)

## Markets & Missions We Serve

Axient offers expertise across Defense and Civil markets in the following areas:

- Long Range Precision Fires
- Hypersonics
- Strategic Intelligence
- Global Strike
- Improved Readiness and Lethality
- Counter UAS
- Missile Defense
- Counter Long Range Precision Fires
- Air Defense (Integrated Fires)
- Space Asset Protection
- Next Generation Jamming and Countermeasures
- Cyber-Secure/Cyber-Resilient Systems
- Integrated Intelligence, Surveillance and Reconnaissance
- Air Superiority
- Advance Data Analytics
- Autonomous Operations
- AI and Machine Learning
- Robotics
- Space Exploration
- Moon-to-Mars
- Civil & Commercial Space
- Science Spacecraft
- Remote Sensing, PNT
- MILSATCOM
- Classified Warfighter Support

## Who We Are

### BREAKTHROUGH SOLUTIONS FOR MISSION SUCCESS

New challenges demand new thinking. The changing landscape and our nation's critical missions demand adaptive, innovative, and accelerated solutions and new ideas. At Axient, we're driven to new solutions for what comes next, whether new approaches, new insights or new technology to advance mission forward. From mission to operations and sustainment to cyber threats, we provide expertise and technical insight that enables customer missions to rise to every challenge.

### DELIVERING AT MISSION SPEED

Innovation without responsiveness only solves yesterday's problems. At Axient, we leverage our engineering, customer expertise and proven development process to drive solutions at the speed of mission, to ensure our customers are always ahead of the threat and clear of the challenge.

### CONTRACT VEHICLES

- GSA Multiple Award Schedule (MAS)
- GSA OASIS Pools 1 & 3 (JV access to SB Pools 4, 5, and 6)
- US Navy SeaPort Next Generation (NxG)
- US Army AMCOM EXPRESS: Programmatic and Business & Analytical Domain (Partnership Access to Technical and Logistics Domains)
- GSA ASTRO: Research, Space, Development/ Systems Integration, and Support Pools
- Access to several Consortium/OTAs

## Locations

# INFRASTRUCTURE AND ENGINEERING

**CALIBRE**  
*Our Success Follows Yours®*

CALIBRE Systems, Inc. is an employee-owned management consulting and digital transformation company supporting government and commercial clients since 1989. CALIBRE provides a wide range of services related to infrastructure and engineering, to include enterprise infrastructure portfolio management, energy management and analysis, distributed energy resource implementation, energy efficiency and environmental assessments, and facility analysis.

We manage resources to achieve the greatest return on investment, prolonging the useful life of assets.

DEEP EXPERTISE

### Real Property Inventory Management

CALIBRE assists organizations in making strategic asset management decisions regarding real property. We use a combination of modeling, facility condition, lifecycle costs, and utilization and criticality to mission to determine recommendations for future facility use, enabling clients to efficiently manage assets.

### Sustainment Management System (SMS) Data Management

CALIBRE models complex facility infrastructure systems and components to evaluate sustainment, restoration, and modernization options. Our tools and certified experts help facility managers prioritize alternatives, manage risk, and reduce expenditures.

### Facility Lifecycle Management

CALIBRE optimizes the life and usage of facilities with minimal resources, emphasizing efficiency improvements and cost savings.

### Sustainability Planning and Advisory Services

CALIBRE develops plans for energy, water, greenhouse gas, on-site generation, and other resources to optimize performance. We conduct resource analyses and optimization, and formulate defensible program budgets.

### Energy and Water Efficiency Assessments

CALIBRE conducts facility assessments, utility rate analyses, utility Meter Data Management System (MDMS) services, data analytics, energy audits, and greenhouse gas audits.

DEMONSTRATED IMPACT

### United States Army Base Realignment and Closure (BRAC)

CALIBRE provides continuous support to the Army's BRAC program, helping the Army garner ~\$2 billion annual net recurring savings from five BRAC rounds. We contributed to the BRAC Division's disposal of over 279,000 acres of BRAC and Non-BRAC excess installation property, reduced caretaker costs, fostered local redevelopment, and produced \$238 million in revenue from property sales.

### U.S. Army Office of Energy Initiatives (OEI)/U.S. Air Force Office of Energy Assurance (OEA)

CALIBRE provides program management support of large-scale renewable and alternative energy opportunities. Our support entails identifying and vetting opportunities, as well as developing them into energy security/resiliency projects that meet mission-specific requirements. For the U.S. Army alone, we have contributed to 11 energy projects awarded, increased onsite generation capability, obtained ~\$627 million private capital investment, and achieved ~\$33 million in estimated cost avoidance.

### U.S. Army Meter Data Management System (MDMS)

CALIBRE integrated, deployed, installed, transitioned, and sustained the MDMS solution to automatically process and report energy data. MDMS allows Army energy officials to view near real-time meter data from a secure network at several levels, helping the Army identify targets for energy saving opportunities and planning initiatives and to support decision-making.

CALIBRE received one of the first licenses awarded by the Army to sell **BUILDER™** to the private sector

Fielded MDMS to **5 MAJOR** Army Commands

**78M** Square Feet of Facility Assets Assessed

Executed energy analyses for **15** Air Force installations

Disposed of **279,000** BRAC and non-BRAC excess installation acres

# DAI – OASIS UNRESTRICTED

*OASIS is a program of Multiple-Award Indefinite Delivery Indefinite Quantity (MA/IDIQ) contracts that provide flexible and innovative solutions for complex professional services. The core disciplines of the contract include program management, management consulting, logistics, engineering, scientific, and financial services.*

## OASIS

**Contract:**  
47QRAD20DU128

### Unrestricted Pool 1

**General Contact:**  
OASISContracts@dai.com

**Contract Manager:**  
Zach Arney  
zach\_arney@dai.com

**Program Manager:**  
Natawnee Fritz  
natawnee\_fritz@dai.com

## OASIS contract:

- Designated a Tier 3, Best-In-Class (BIC) solution helping agencies meet their Spend Under Management (SUM) goals
- Provides a single solution for complex requirements
- Supports various contract types, including cost reimbursement, hybrids, time and materials and labor hours at the task order level
- Supports commercial and non-commercial acquisition
- Has no program ceiling or ceiling on sole source awards
- Does not allow for protests on orders less than \$10 million

## Accessing OASIS

There are two ways to access OASIS:

- **Direct acquisition**—GSA issues a Delegation of Procurement Authority to the customer agency Ordering Contracting Officer (OCO) who performs the acquisition; or
- **Assisted acquisition**—GSA performs the acquisition on behalf of the customer agency and provides post-award support, as negotiated with the customer.

Ordering guides, a one page order checklist, market research tools, and support on scope reviews can be found here: <https://www.gsa.gov/buying-selling/products-services/professional-services/buy-services/oasis-and-oasis-small-business/buyers-guidance-and-resources>

## DAI holds OASIS Unrestricted Pool: Management Consulting

Under OASIS Pool 1, NAICS Codes include:

- 541330 Engineering Services
- 541611 Administrative Management and General Management Consulting Services
- 541618 Other Management Consulting Services
- 541620 Environmental Consulting Services
- 541690 Other Scientific and Technical Consulting Services
- 541990 All Other Professional, Scientific, and Technical Services

Shaping a more livable world.

# DAI – CAPABILITIES

## CROSSCUTTING

- Adaptive Management
- Assessments
- CGE Analytics
- Data Collection and Analytics
- Gender Equity & Women's Empowerment
- Human-Centered Design
- Investment and Growth Scenario and Forecasting
- Monitoring, Evaluation, & Learning

- Buy-In Management
- Grants Management
- Rapid Procurement
- Rapid Start-up

## About DAI

DAI has been on the frontlines of global development for more than 50 years providing technical expertise, project management, and consulting services to the U.S. Government, corporations, and other development partners around the world.

DAI is able to operate in any implementing context, from stable societies and high-growth economies to challenging environments racked by political or military conflict. We deliver project results through short- and long-term programming supported by rigorous monitoring and evaluation. Through decades of experience executing complex, multi-year development projects, DAI has field-tested systems and procedures to deliver efficient and compliant technical assistance, assessments, procurements, and grants under contract.

# FLUOR®

## Capabilities Statement

Fluor is a global engineering, procurement, fabrication, and construction company with projects and offices on **six continents**. With headquarters in Irving, Texas, Fluor has provided engineering, procurement, and construction (EPC) services for more than **100 years**. The Ethisphere® Institute has recognized Fluor as one of the **World's Most Ethical Companies®** for 14 consecutive years. Fluor had a revenue of \$15.7 billion in 2020 and is ranked 181 among the **Fortune 500** companies.

Region	Years in Region
N. America	109
S. America	84
Europe	76
Africa	61
Middle East	74
Asia	70
Australia	71

- Fluor's Current and Recent Work Locations
- 21 Major Fluor Offices Located in 13 Countries Across 6 Continents
- ★ Corporate Offices in Irving, Texas

### FLUOR'S FOCUS ON OUR CUSTOMERS' MISSION

Fluor's **44,000 employees** are **building** a better future by applying **world-class expertise** to solve its customers' greatest challenges. **We deliver** large, complex projects and **operate** facilities in **multiple industry sectors**.

Meeting stringent quality requirements in diverse industries as well as austere environments.

Providing technical solutions that deliver safe, well-executed, capital-efficient Engineering, Procurement and Construction projects.

Developing challenging engineering designs for Government and commercial facilities.

Registered in all 50 states and ranked as ENR's #2 Contractor in 2019.

### OUR CORE CAPABILITIES

Our **global engineering, logistics and professional capabilities** form the foundation of our **project-driven** organizational structure, allowing us to implement a lean, flexible, **project-based approach** supported by **extensive resources** and corporate reachback. This allows us to **mobilize** quickly, **sustain** continuous high standards of **operations**, and enable **rapid** and **reliable** procurement to deliver **cost-effective** capabilities and services **worldwide**.

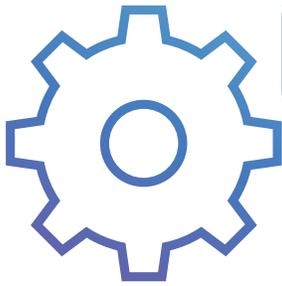

#### GSA Oasis Pool 1: Contract # 47QRAD20DU116

Fluor Enterprises Inc. • 6700 Las Colinas Boulevard, Irving, Texas 75039 • DUNS: 059220392 CAGE Code: 7T617

**ENGINEERING SERVICES:**

Fluor has over **8,000** engineer personnel, to include **core disciplines** (civil, electrical, mechanical, piping, and structural engineering) and **advanced specialties** such as simulation, enterprise integration, integrated automation processes and interactive 3D and 4D modeling

**Integration of proven Value Engineering practices which ensure projects meet or exceed cost objectives without compromising quality.**

**Front-End Engineering & Design (FEED) capabilities include detailed design packages, hazardous operations review, and cost estimates to support project funding, scope definition, and associated construction forms.**

**Engineering expertise and technical support available in 100 countries.**

**Experienced experts in their respective engineering disciplines, supported by first-of-a-kind technologies and global integration.**

**Proven global processes and best practices available 24/7 via Fluor's award-winning knowledge-management system, Knowledge OnLine<sup>SM</sup>.**

*Fluor is designing the reconfiguration of a Mixed Oxide Fuel Fabrication Facility into the Savannah River Plutonium Processing Facility. The scope includes disassembly and removal of equipment and utility commodities, constructing and repurposing surrounding facilities, implementing security and nuclear safety upgrades, and hiring and training the workforce to ensure safe, secure, reliable, and responsive operations.*

**LOGISTICS/SUPPLY CHAIN SERVICES:**

For more than **100 years**, Fluor's **Global Supply Chain** has provided industry-leading supply chain solutions to projects in more than **30 countries** on **six continents** worldwide.

- ▶ Worldwide network of more than 1,500 supply chain professionals.
- ▶ Expertise in commercial strategy development, global sourcing, material planning and purchasing, import and export compliance, field material management services, and other logistics activities.
- ▶ Developing and implementing solutions that reduce costs of products and services, improve schedule, mitigate supply chain risks, improve supply chain process efficiency, and maximize the value of each expenditure.

- ▶ Leveraging buying power to reduce supply chain cost and schedule; illustrated by an annual global spend of \$15.3 billion dollars for equipment, materials, and subcontracted services.

*At the peak of operations on LOGCAP IV Task Order 05 in Afghanistan, our "hub and spoke" operation consists of six regional distribution centers supporting 69 sites. Fluor processed 12,289 cargo containers and inventoried 40,991 containers. Consolidating ocean shipments to expedite transit operations, we realized up to \$50,000/month in cost savings.*

**PROFESSIONAL SERVICES:**

Fluor uses many **disciplines** in the execution of our global projects and achievement of **customers' missions**. We ensure the right person is assigned to each role through the careful selection of candidates during the interview process, use of a **Core Skills Model**, and alignment with detailed job descriptions. Fluor's wholly-owned subsidiary, **TRS**, a **world-leading** professional, engineering, technical and field services staffing organization, supports our hiring efforts. TRS uses a discreet, ethical, and highly professional approach to identify and screen candidates to satisfy staffing needs. They also provide a **Managed Services Program** reducing recruitment costs and bringing greater control, consistency, and visibility to workforce management. In addition to its **OCONUS** capabilities, TRS has offices in Greenville and Charleston, SC; Dallas and Houston, Texas; and Costa Mesa, California.

- ▶ Average time from offer acceptance to training start date is 9.5 days.
- ▶ Over 1.4K hires over last 5 years for U.S. Government projects; of these 1K+ annual OCONUS hires.
- ▶ More than 500 skilled employees with Secret or Top Secret eligible clearances.

*At the onset of the COVID-19 pandemic, Fluor created an expeditionary staging area to quarantine recruits prior to basic training at Marine Corps Recruit Depot, Parris Island. Within hours of award, 10 Fluor personnel arrived to prepare two locations for installation of temporary structures to serve as housing, laundry, showers/latrines, dining, offices, PX, and training facilities. Eleven days ahead of schedule, Camp 1 and 2 were completed and turned over to the U.S. Government.*

# Public Sector Solutions

Guidehouse is a leading global provider of consulting services to the public and commercial markets with broad capabilities in management, technology, and risk consulting. We help clients address their toughest challenges with a focus on markets and clients facing transformational change, technology-driven innovation and significant regulatory pressure. Across a range of advisory, consulting, outsourcing, and technology/analytics services, we help clients create scalable, innovative solutions that prepare them for future growth and success. Headquartered in Washington DC, the company has more than 7,000 professionals in more than 50 locations. Guidehouse is a Veritas Capital portfolio company, led by seasoned professionals with proven and diverse expertise in traditional and emerging technologies, markets and agenda-setting issues driving national and global economies.

## Human Capital

Guidehouse works with the Federal government to help them meet 21st century workforce challenges. We provide human capital solutions that are comprehensive, innovative and proven, and which support the Federal Human Capital Assessment and Accountability Framework. We help our clients to improve their organizational and workforce performance through these critical human capital areas:

- Organizational Design
- Talent Management
- Strategic Planning
- Workforce Planning
- Succession Management
- Learning and Development
- Knowledge Management
- Change Management

## Enterprise Effectiveness

We help our clients to assess current operations issues to increase efficiencies and effectiveness, as well as achieve success with appropriate rewards and recognition programs. Our services include:

- Benefits Realization
- Performance Metrics and Management
- Business Process Improvement
- Strategic Sourcing and Alliance Management
- Privatization and Outsourcing Advisory
- Economic Advisory

## Financial Management

Our methodologies provide financial process integration and alignment to enable cost reduction, increase controls and reliability, and heighten confidence in financial information. We also help federal agencies address accounting, auditing, reporting, systems and internal control challenges and impediments. We support federal agencies with:

- Budget and Performance Integration
- Financial Reporting and Controls
- Business and Financial Planning
- Property and Asset Management
- Grants and Credit Management
- Fraud Investigation and Recovery

## Governance, Risk and Compliance

Guidehouse's Governance, Risk and Compliance Solutions provide a comprehensive approach to achieving agency objectives and regulatory compliance requirements. Our approach features an

assessment of management processes and risk-based realignment to increase agility in responding to dynamic challenges faced by today's government executives.

- Enterprise Risk Management
- Continuity of Operations
- Ethics and Compliance
- Audits and Risk Assessments
- Regulatory Function Management
- Regulatory Reporting and Assurance
- Internal Controls

## Program Management

Guidehouse's program management services team is an integrated force, responsible for all aspects of our service delivery life cycle model. We provide the tools, methodologies and people to ensure successful delivery of large projects and programs. We have proven success helping government agencies in the areas of:

- Program and Project Management Office Design and Implementation
- Organizational, Program and Project Management Assessment
- Project Portfolio Management Support Services
- Feasibility and Business Case Development and Monitoring
- Acquisition Management Support
- Performance Assessment and Benefits Realization
- Dispute and Investigations Support

## Technology

We help our clients maximize the return on their information technology investments through the alignment of their business processes with their technology activities. We assist our clients with the creation and management of world-class technology functions, incorporating security, data management and IT business risk management, through:

- Acquisition and contract strategy and planning
- Application and infrastructure modernization architecture, planning, roadmapping; enterprise application integration and system evaluation
- Audit, compliance, controls, and policy
- Business intelligence and analytics; enterprise content management; enterprise data management
- Cyber and physical security, privacy, and risk consulting
- IT function effectiveness and efficiency optimization; organizational authorities, responsibilities, and design
- Portfolio, program, and project management
- Risk mitigation and independent verification; critical project recovery

## Award-Winning Excellence

In 2014, Guidehouse became the first large professional services firm ever to receive the nation's highest Presidential honor for quality - the Malcolm Baldrige National Quality Award. The Baldrige Award was established by Congress to recognize organizations for performance excellence through innovation, improvement and visionary leadership. Winning the award demonstrates Guidehouse's unparalleled commitment to quality and continuous improvement, which is embedded in everything we do and has enabled us to provide exemplary service to our Government clients.

# ICF's GSA OASIS Contract: One Acquisition Solution for Integrated Services

### About ICF

ICF is a global consulting services company with over 7,000 full- and part-time employees, but we are not your typical consultants. At ICF, business analysts and policy specialists work together with digital strategists, data scientists and creatives. We combine unmatched industry expertise with cutting-edge engagement capabilities to help organizations solve their most complex challenges. Since 1969, public and private sector clients have worked with ICF to navigate change and shape the future.

## ABOUT US

Integral Consulting Services, Inc. (Integral) is an Identity Intelligence (I2) and technology solutions company providing full life-cycle I2 and Digital Transformation (DX) solutions. Integral's I2 solutions use multimodal biometrics and Artificial Intelligence (AI) techniques to enhance the performance of intelligence analysis. Integral's DX solutions use DevSecOps approaches and cloud computing with (AI) and machine learning (ML) while prioritizing cyber security.

*Identify targets of interest who could threaten US Government missions*

*Protect your IT infrastructure from external threats and penetration*

*Enhance the value and impact of your IT investments*

## SUPPORT YOUR MISSION

**Our long-term client partnerships are built on performance. We provide secure, innovative, and advanced technology solutions to enable missions and exceed expectations.**

## WHAT WE DELIVER

### Identity Intelligence Solutions

- Develop policies and standards and perform All Source Intelligence Analysis using Biometric-Enabled Intelligence (BEI), Forensic-Enabled Intelligence (FEI)
- Implement multimodal biometric solutions for I2
- Use advanced analytics, AI and ML to automate all-source intelligence and counterintelligence analysis
- Utilize Data Science to extract knowledge from structured and unstructured data to perform comprehensive intelligence analysis
- Create I2 solutions using Big Data techniques and social media data sources for Open Source Intelligence (OSINT) analysis
- Provide I2 tradecraft and training for Human Intelligence (HUMINT) and OSINT to produce actionable intelligence
- Perform intelligence analysis for weapons of mass destruction (chemical, biological, radiological, and nuclear)

### Digital Transformation Solutions

- Enable Digital Transformation for clients' legacy IT environment using DevSecOps, AI, ML, cloud computing and cybersecurity
- Reengineer legacy applications using DevSecOps and Agile Methodology
- Implement cybersecurity solutions to protect clients' IT infrastructure from external threats and penetration
- Develop clients' cloud strategy to help migrate their IT infrastructure from on-premises to a secure cloud environment
- Design and implement advanced Enterprise Service Management solutions to promote proactive service delivery and increased customer satisfaction

## OUR TECHNOLOGIES

**Multimodal Biometrics and Data Science** – Develop Identity solutions using multimodal biometrics (face, fingerprint, iris, palm, heartbeat, behavior) and Data Science techniques

**DevSecOps and Agile Approach** – Develop enterprise applications using agile methodology, Service-Oriented Architecture (SOA) and open source solutions

**Artificial Intelligence and Machine Learning** – Utilize AI and ML techniques to enhance automation and to perform advanced analytics

**Cloud Computing** – Leverage cloud solutions such as AWS and Azure to migrate clients' IT infrastructure to a more secure, fault-tolerant, and customizable environment

**Cybersecurity** – Implement Zero Trust solutions, including vulnerability analysis, intrusion detection, security information and event management (SIEM), and information assurance to protect digital infrastructure from cyber threats

## OUR PROCESSES

- Integral's Project Management Methodology (**I-PMM**) delivers the highest quality – on time and on budget
- Integral's Transition Management Methodology (**I-TMM**) ensures seamless transition-in and transition-out
- Integral's Risk Management Methodology (**I-RMM**) mitigates risks to project schedule, costs, and quality
- Integral's Recruiting Management Process (**I-RMP**) gives our client the most qualified candidates for every project
- Integral's Quality Management Methodology (**I-QMM**) enables us to offer the highest-quality solutions and continuous process improvements

## OUR PEOPLE

- Our highly qualified technical staff brings advanced degrees with extensive experience and passion in I2 and DX technologies.
- Our certified Program Managers bring proven experience and commitment to deliver solutions meeting or exceeding performance objectives to make our clients successful.

## SELECTED CLIENTS

# EXPERIENCED OASIS SOLUTIONS PROVIDER

## OASIS

One Acquisition Solution for Integrated Services (OASIS) is your best-value solution to address the most complex professional services requirements for all Federal agencies, while saving the Government time and money. Kearney & Company, P.C. (Kearney) is among the select, highly capable companies chosen by the General Services Administration (GSA) to provide financial services under the OASIS schedule, and was the **first** large business contract awardee under OASIS Unrestricted.

## The Kearney Advantage

Kearney is the premier CPA firm exclusively focused on providing services to the Government and across the entire financial management spectrum. Kearney helped the Federal Government improve its financial operations' overall effectiveness and efficiency; increased its level of accountability and compliance with laws, regulations, and guidance; and protected its funds from fraud, waste, and abuse. We understand the Federal Government's need for efficiency and transparency, and Kearney provides expert guidance to our clients.

**Kearney's services under OASIS include:**

- Attestation
- Chief Financial Officers (CFO) Act Audit
- Healthcare Audit
- Performance Audit
- Internal Controls/A-123
- Information Assurance and Audit
- Audit Readiness
- Grants Management
- Shared Services Support
- Financial Reporting and Accounting
- Transaction Processing and Accounting
- Credit Reform Act Financial Management Support
- Financial Audit
- Budget
- Workforce Development
- Consulting
- Audit Remediation

**OASIS is designed to address agencies' needs for any professional services requirements that:**

- Span multiple professional service disciplines
- Contain significant Information Technology (IT) components, but are not IT requirements in and of themselves
- Contain ancillary support components, commonly referred to as Other Direct Costs (ODC)
- Require flexibility for all contract types at the task-order level, including cost reimbursement

**Benefits of OASIS include:**

- Reduced excess costs associated with award and administration of multiple Indefinite Delivery/Indefinite Quantity (IDIQ) and/or standalone contracts
- Reduced lead time and administrative efforts to acquire complex professional services
- Facilitated negotiation of lower pricing at the task-order level
- Improved and reduced time associated with task order proposal comparison process by creating "apples-to-apples" comparisons of proposed labor costs
- Reduced volume of information that task order Contracting Officers (CO) must evaluate via OASIS vetting process and available pricing tools

**What are Government leaders saying about OASIS?**

"OASIS has been employed successfully across the Department of Defense, particularly the Military Services, for some time. I am impressed with OASIS' performance, in concert with the leadership emphasis within the Department of Defense on the effective management of professional services, to further mission and acquisition tools...This MOU not only paves the way for expanded usage by the 4th Estate, but also supports our commitment to cost-effectively meeting the Warfighter's needs by securing the lowest fees for usage. We look forward to the 4th Estate employing OASIS and OASIS SB as additional tools to meet their needs for professional services."

**- Claire Grady, Director, Defense Procurement and Acquisition Technology and Logistics, Policy for the Office of the Under Secretary of Defense**

"GSA is happy that our OASIS and OASIS Small Business suite of contracts are playing a role in supporting the nation's health care system....This MOU also expands our partnership with civilian agencies and is consistent with our goal of providing our partners in government with streamlined contracts that help them more effectively meet their mission requirements, while also eliminating costly duplicate contracts."

**- Tiffany Hixson, GSA Assistant Commissioner for the Office of Professional Services and Human Capital Categories**

# Company Profile

Technology Driven  
Customer Focused

Scientific Research Corporation is an advanced engineering company that was founded in 1988 to provide innovative solutions to the U.S. Government, private industry, and international markets. Since its inception, SRC has continued to successfully meet emerging challenges in the marketplace and consistently deliver the highest quality products and technical services to its customers.

SRC's business activities are focused on a broad range of information, communications, engineering, simulation, training, and instrumentation systems. With corporate headquarters in Atlanta, Georgia, and engineering offices located across the U.S., SRC is dedicated to a full range of engineering, integration, testing, support, and research and development activities. SRC laboratories and test facilities reflect state-of-the-art technology and mirror commercial and Government operational environments.

At the core of SRC's capabilities is a seasoned team of highly skilled engineers and scientists with multi-disciplinary backgrounds. This team of professionals is challenged on a daily basis to provide leading edge technology solutions to their customers. Their knowledge and expertise in rapidly and proficiently matching advances in technology to customer needs and applications is the basis for SRC's success.

Today's climate of competition, fast-paced technological change, and complex global conditions demands the delivery of products and services that meet an ever increasing standard of quality at minimal cost. The breadth of their skills and service offerings and the depth of their knowledge give SRC a balance and diversity that will enable them to successfully meet these demands – through advanced technology solutions tailored to their customers' needs.

## Corporate Headquarters

## Capability Statement

**Vysnova Partners** is a fast-growing program management firm that delivers a broad range of professional and technical support services on a worldwide basis for both defense and civilian agencies. With a diverse team of project managers and subject matter experts who have worked both with and within the federal government, Vysnova has experienced our customers' challenges first hand. With that experience, Vysnova develops and delivers successful operational solutions for federal agencies. Whether it's COVID-19 in the US and OCONUS, Ebola in Africa, Zika research for the CDC in several countries, or developing curriculum or policy for the acquisition workforce, Vysnova executes proven solutions so its customers are able to focus on their core mission. As one of the few government contractors with project implementation experience on almost every continent, Vysnova knows how to initiate and conduct business internationally to keep its customers in compliance while advancing the project and the broader mission that it serves.

Vysnova has the unique advantage of being a mature small business with internal systems in the areas of human resources, recruiting, accounting (DCAA compliant), contracting (DCMA compliant), security (Top-Secret Facility Clearance), legal, and ancillary support areas comparable to those found in mid-market firms. Approximately 50% of Vysnova's contracts are CPFF Prime Awards and we have experience managing over \$50M in contracts and grants.
